dazwischen 4

organ and ensemble (var.)

eva-maria houben

2025

*a wide-open space with changing constellations of sounds.
full of connections, appearances and reverberations.*

by means of a very high and a very low sound (both more air than pitched sound) the organ provides space and shelter for the sounds of the ensemble.

the other players:

listening –

calling, responding

as they may possibly move at different places of the site
